Waha Individual Version 3/4

USER MANUAL for 3/4 Version:

Waha Version 3/4 offers complete protection and privacy for all sorts of your personal valued files, including documents, pictures, drawings and video clips, etc. Using version 3/4 to share the files could prevent the backup file produced by spy programs; it only offers file sharing, but leaves no signs at all after using it. Users could share the files to friends with no worries. The only thing that version 3/4 does not protect is the time counts function. However, it is a completely free-of-charge software. The user could download Waha Individual version 3/4 at Waha, and install it in one of the operating systems of Windows NT, 2000, 2003, or XP, then restart the computer after installation to enjoy the free Waha Individual Version 3/4.

To open the files which being protected, download Waha Player first or double-click on the installed Waha Individual Version 3/4 to read the user manual.

Using Waha Individual Version 3/4 to share the protected file, it could only be opened for 10 seconds and for one-time use; it will then be destroyed when the time is up or the file is closed Syestem Requirement

CPU: PIII-500, RAM: 128M, HD: 2G or higher OS SUPPORT Win2000/XP/2003Server/NT
