USER MANUAL for Waha Home Edition:

Provide complete protection and privacy for all sorts of your personal valued files, including documents, pictures, drawings and video clips, etc. Home Edition prevents the files, which being shared and protected, being printed, saved, copied, cut and pasted, or screen printed by other unauthorized users. For those backup files produced by testing/recording, fishing, or spying programs, it offers only sharing, but leaves no signs at all after using it. Users who want to share the files to other friends are able to share them with no worries. The operating method for Home Edition is very similar to version 3/4.

1. Enhance the protecting function of banning prints in order to share only the content of the file.

2. Once the protected file is being opened, it will then be destroyed right after using it. It could flexibly set up the file sharing time. The user could download Home Edition version at Waha, and install it in the system of Windows NT, 2000, 2003, or XP. To enjoy the service of Home Edition and Waha safe server, all you have to do is to restart the computer after the installation, then complete the online payment registration.

To instantly open the files which being protected by Home Edition, download Waha Player or double-click on the installed Home Edition.

To use Home Edition to share the file, the protecting time period could be set up flexibly, and it's only for one-time use; it will then be destroyed when the time is up or the file is closed.

Syestem Requirement CPU:PIII-500,RAM: 128M,HD: 2G or higher O.S/ SUPPORT: Win2000/XP/2003Server/NT

Download:

You can download the software online at <u>http://www.waha.com/download/setupWHome.zip</u>. **Installation:**
